## **City Council Cancels Meeting November 16**

The Missoula City Council members have canceled their meeting next week, on Monday, Nov. 16. Normally, the City Council meets the first four Mondays of every month. City Council committees generally meet on Wednesdays and make recommendations. The full Council membership considers those recommendations during their Monday meetings and generally acts on them.

Because most City offices were closed on Wednesday, Nov. 11, to observe Veterans Day, the Council's committees are not scheduled to meet. That will affect the following week's Council agenda. As City Council President Ed Childers explained, "We have no items to consider on the 16<sup>th</sup> of November, and so we cancelled that meeting."
