### **Police Seek Hit-and-Run Vehicle**

Missoula police are looking for a car that was damaged in a recent pedestrian hit-and-run.

The vehicle is a sage-green or sea-green Subaru Forester, 2008 or 2009 model year. It has damage to the right front, where the air flap is missing. This is an area under the headlight but including the fog light.

The accident occurred at Brooks and Russell streets, but the car could belong to a resident anywhere in the city. Accident investigators are hoping the car has been noticed or may turn up in a body shop.

Anyone with information about this vehicle can call the Missoula Police Department Traffic Office at 552-6333 or Crimestoppers at 721-4444.
