One More Call for Leaves

City crews continue to pick up this fall's leaves by request as winter's snow continues to hold off.

If weather permits through Dec. 23, residents can call the Street Maintenance Department at 552-6360 to request pickup of leaf piles. Streets crews are working hard to get to all remaining leaf piles before deep snow covers them.

It's no longer necessary to use even-odd parking, but crews request that residents refrain from driving or parking on leaf piles.
