Rattlesnake Creek / Broadway Crossing (RUX) Project Public Meeting

When: Thursday, May 31, 6 p.m.

Where: City Council Chambers, 140 W. Pine St.

Come to a public meeting on Thursday, May 31, at 6 p.m. in City Council Chambers at 140 W. Pine St. for an update on the plans to enhance access and connections among the Rattlesnake Valley, Downtown and the University of Montana with improved safety and multi-modal facilities. Staff members of the City of Missoula and the project engineers HDR Engineering, Inc. will be on hand to present the project and hear from the public.

Since the initial meeting Feb. 29, the design has been fine-tuned following citizen participation. Proposed plans will be on display, and a presentation will be made at 6:30 p.m., followed by comments and questions and answers.

This project will install a pedestrian and bicycle bridge across Rattlesnake Creek at the east end of Pine Street, construct a trail from the bridge to Van Buren Street, improve pedestrian and bicycle facilities on Van Buren Street to Front Street and improve safety and operations at the Van Buren Street and East Broadway intersection.

Additional contacts:

Dustin Hirose, Project Engineer, HDR Engineering, Inc. 532-2200

The City of Missoula attempts to provide accommodations for any known disability that may interfere with a person's participation in any service, program, or activity. For reasonable accommodations to participate in this meeting, please contact us at least two days before this public meeting.
