

CAPITAL IMPROVEMENT PROGRAM
City of Missoula CIP Project Request Form FY 2014-2018

Program Category:	Project Title:	12 Project #	13 Project #	14 Project #
Parks, Recreation and Open Space	Fort Missoula Regional Park	PR-03	PR-03	PR-03

Description and justification of project and funding sources:

Development of Fort Missoula Regional Park meets the obligation and promises of the 1995 bond language which specifically named a regional park. The park will provide the community with facilities for outdoor sporting events, create a cultural-heritage center, preserve open views and wildlife habitat, enhance wetlands and riparian vegetation, and serve as an environmental education center for youth activity outdoors. There will be over 5 miles of trails, 100 acres of natural area, fishing ponds, access to the Bitterroot River and connectivity to a public transportation system which will all attract tourists to the area and bolster the local economy. The development can be phased and paid for through GO Bond, Federal funds, mill levy, Impact fees, Cash in lieu, and donations. Maintenance funded through Park District and fees.

The immediate project focus is to develop Phase 1, Area 1, at an estimated cost of 8 million dollars. (Development of the entire 83 acre core parcel is estimated at approximately 20 million.) Once the infrastructure is in place, the remaining elements will be developed, including trails, historic interpretation, a large pavilion with stone fireplace, premiere soccer and rugby pitches, parking, restrooms and open space, at an estimate cost of an additional 12.5 million. Friends of Fort Missoula Regional Park are moving forward on a capital campaign. The County recently completed design development detail on the existing 65 acre Fort Missoula Park. The plan was adopted by the BCC in November 2012. The Department is investigating water rights in FY 13, FY 14.

FY 15 - Phase 1 + Area 1 and FY 16 the Next Phase and areas based on support and matching funds

Note: in 2011 received \$300,000 DNRC grant to reclaim wood waste at the old Champion Mill site. This product is processed for use at FMRP and Silver Park.

Is this equipment prioritized on an equipment replacement schedule?	Yes	No	x

Are there any site requirements:

Yes, See Master Site plan

How is this project going to be funded:

REVENUE	Funding Source	Accounting Code	FY14	FY15	FY16	FY17	FY18	Funded in Prior Years
	Impact Fees		30,000	110,000				42,896
	Knife River credits							380,628
	TBD - Mill, bond, Park District, Other			5,000,000	3,000,000			
	Grants/Donations			2,200,000	1,800,000			
			30,000	7,310,000	4,800,000	-	-	423,524

How is this project going to be spent:

EXPENSE	Budgeted Funds	Accounting Code	FY14	FY15	FY16	FY17	FY18	Spent in Prior Years
	A. Land Cost							
	B. Construction Cost			5,392,800	3,552,000			
	C. Contingencies (10% of B)			726,000	480,000			
	D. Design & Engineering (15% of B)		30,000	1,080,000	720,000			
	E. Percent for Art (1% of B)			72,000	48,000			
	F. Equipment Costs							
	G. Other			39,200				
			30,000	7,310,000	4,800,000	-	-	42,896

Does this project have any additional impact on the operating budget:

OPERATING BUDGET COSTS	Expense Object	Accounting Code	FY14	FY15	FY16	FY17	FY18	Spent in Prior Years
	Personnel				315,000	315,945	325,423	
	Supplies				70,000	72,100	74,263	
	Purchased Services				115,000	115,345	118,805	
	Fixed Charges							
	Capital Outlay							
	Debt Service							
			-	-	500,000	503,390	518,492	-

Description of additional operating budget impact:

Project Rating

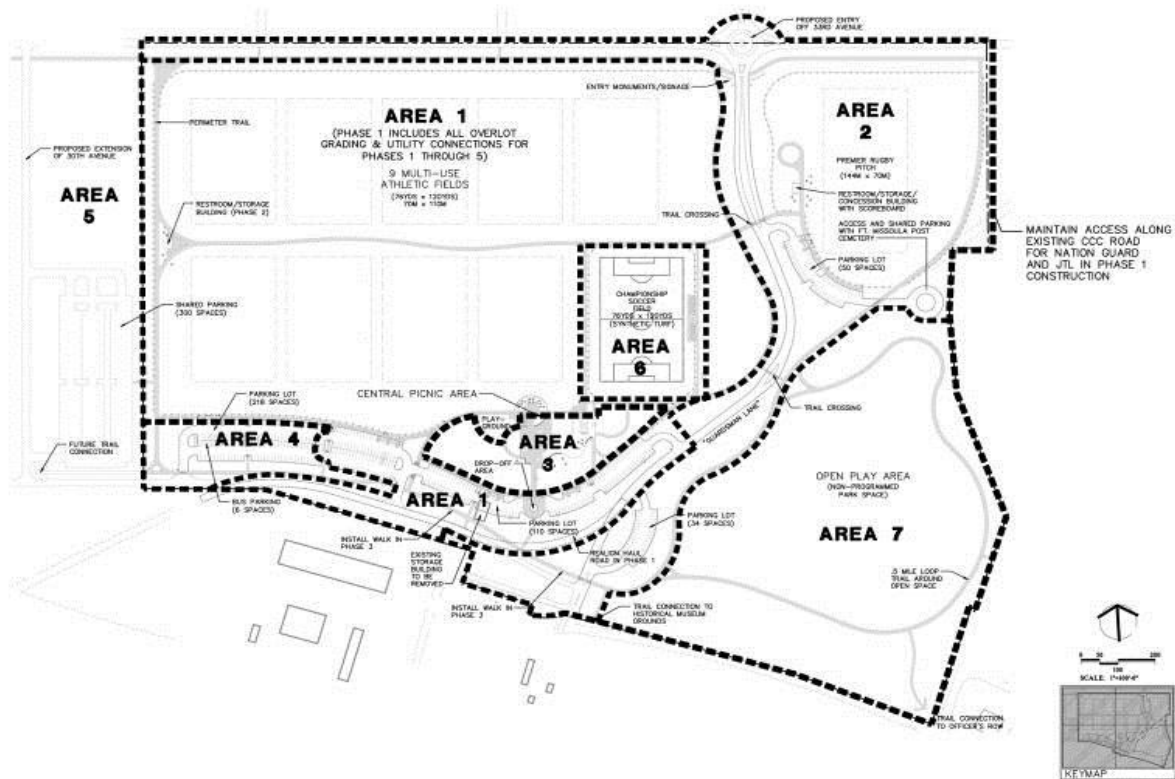

(See C.I.P. Instructions For Explanation of Criteria)

Program Category:	Project Title:				14 Project #
Parks, Recreation and Open Space	Fort Missoula Regional Park				PR-03
Qualitative Analysis		Yes	No	Comments	
1. Is the project necessary to meet federal, state, or local legal requirements? This criterion includes projects mandated by Court Order to meet requirements of law or other requirements. Of special concern is that the project be accessible to the handicapped.		<input type="checkbox"/>	<input checked="" type="checkbox"/>		
2. Is the project necessary to fulfill a contractual requirement? This criterion includes Federal or State grants which require local participation. Indicate the Grant name and number in the comment column.		<input type="checkbox"/>	<input checked="" type="checkbox"/>		
3. Is this project urgently required? Will delay result in curtailment of an essential service? This statement should be checked "Yes" only if an emergency is clearly indicated; otherwise, answer "No". If "Yes", be sure to give full justification.		<input type="checkbox"/>	<input checked="" type="checkbox"/>		
4. Does the project provide for and/or improve public health and/or public safety? This criterion should be answered "No" unless public health and/or safety can be shown to be an urgent or critical factor.		<input type="checkbox"/>	<input checked="" type="checkbox"/>		
Quantitative Analysis	Raw Score Range	Comments		Weight	Total Score
5. Does the project result in maximum benefit to the community from the investment dollar?	(0-3) 3	Surveys conducted in early 2008 and in fall 2010 have demonstrated that approximately 70% of the citizens support paying creased taxes for park improvements. The capital campaign targeting to raise in excess of 4 million dollars to leverage public funds.		5	15
6. Does the project require speedy implementation in order to assure its maximum effectiveness?	(0-3) 3	The potential for economic develop is significant. BBER has conducted preliminary economic benefit assessment. (see attached) Add BBER Stuff Current multi use fields are inadequate in quantity and quality.		4	12
7. Does the project conserve energy, cultural or natural resources, or reduce pollution?	(0-3) 2	The project is being designed to meet all of these criteria. The design will encourage access by mass transfer or non-motorized uses. It responds to the historical, cultural and natural resource values both on the site and in its relationship to the surrounding properties. It conserves energy and resources by following a design that encompasses the entire site, can be developed economically in phases, and consolidates active recreation uses for maximum maintenance efficiencies.		3	6
8. Does the project improve or expand upon essential City services where such services are recognized and accepted as being necessary and effective?	(0-2) 2	The community strongly supports the development of the regional park as a high priority. The lack of adequate recreational facilities is well-documented. Availability of recreational facilities is an important factor in community well-being, public health and perceived livability by residents and those who may be considering Missoula as a business location. Inadequate soccer fields and increased demands necessitate action.		4	8
9. Does the project specifically relate to the City's strategic planning priorities or other plans?	(0-3) 3	Master Park Plan: Goal 1.3 "Ensure that future demands are met through the development of new facilities/services as well as the upgrade of existing facilities." Goal 1.5 "Provide recreational opportunities and facilities for people of all ages and abilities, including meeting ADA requirements." City Strategic Plan - Quality of Life for all citizens.		4	12
Total Score					53

13 Project #	Project Title:
	Fort Missoula Regional Park

Date	Author	Notes
2/27/2012	KM - history notes from previous CIP	Development of Fort Missoula Regional Park meets the obligation and promises of the 1995 bond language which specifically named a regional park. The park will provide for active and passive and contemplative recreation, dog walkers, trail users, historians, and naturalists of all ages, abilities and backgrounds. The development can be phased and paid for through GO Bond, Federal funds, or mill levy, Impact fees, Cash in lieu and donations. Agreement with JTL (DBA Knife River) in 2002 granted the City an additional 86.5 acres. Total JTL credits to Date: \$340,627.62.. Phase I & II of the Arch/Hist Research were completed and meet HPO and Federal 106 requirements. The Master Site Plan originally adopted by City Council and County Commissioners in 2002 was revised with Design Development details (or 30% construction documents) and incorporates cultural resource mitigation in December 2008. Projected cost summary attached. Project costs do not include JTL/Knife River ponds or 17 acre triangle portion owned by the City. Council approved using \$40,000 of the JTL/Knife River credits to remove additional excess materials, rough grade, lower pipeline and create pad for composting wood waste. DNRC Grant to explore economic feasibility of using wood waste product at Champion Mill site to create growth medium for FMRP was successful and grant request for additional \$300,000 for implementation of the grant and was funded by the State Legislature.

Date	Author	Notes
2/27/2012		Friends of Fort Missoula Regional Park recently reconvened moving forward on a new capital campaign. The group met with members of the Mayor's Economic Development Team which supports the renewed effort. The FFMRP will continue to seek private funding for park development.
