**Description and justification of project and funding sources:**

Funding this project would result in the construction of a new approximately 20,000 square foot police evidence storage building. The building will have a 10,000 sqf foot print with mezzanine second floor storage. The new evidence building would be a base storage with two offices for the evidence technicians, two bathrooms and an emergency shower. This project would move all of the evidence into one building. The building will have a roll up door and a loading dock to facilitate transporting evidence. FY16 will begin the design phase and get the authorization from the DEQ to build. The construction will begin in FY 17. The construction costs are \$2,317,208 without the mezzanine, added back in for \$200,000 and DEQ costs of \$45,000. For a total cost of \$2,562,208.
