Summary Description and rationale of project and funding sources:							
<p>Annual replacement of IT infrastructure and hardware which includes but not limited to Servers- thin clients, phones, copy machines. Replacement of this core equipment is vital to the day to day operations of the City. This project will also upgrade our infrastructure to create a robust experience for staff and enhance the security, reliability and efficiency of our datacenter. Bringing in modern equipment, services & functionality will improve staff efficiency, lower operation costs and improve security and reliability. The result will be a highly effective and collaborative business environment that improves the way the City of Missoula interacts with its citizens, employees, partners and customers. This includes network infrastructure, security and presentation equipment</p>
