Summary Description and rationale of project and funding sources:

Missoula County, in partnership with the City of Missoula, received a \$13.0 million BUILD grant in 2019. The City of Missoula committed to matching up to \$2 million in City transportation funds and additional matching funds for utility installation. The project will address a need for key transportation connections within a future mixed-use neighborhood, reducing the need for future trips on currently congested roadways, and enhances multi-modal transportation by providing safer, more convenient options for walking, biking and transit. This includes the Flynn Lowney Ditch acquisition in FY22.

History & Current Status: Impact if Cancelled or Delayed

The City's contribution leverages Federal transportation funding and private contributions toward completing key infrastructure in this rapidly developing area. The City entered into an Interlocal Agreement with Missoula County in 2020 allowing the County to administer design and construction contracts in partnership with the City.

Are there any site requirements/ Potentially Affected Interest (PAI) Coordination:

Engineering design and public outreach through consultant contract administered by Missoula County.
