**Rank:**

Fuel, Polymer, and Natural Gas Inflationary Adjustment

**1. How will request assist in achieving Department Goal and benefit the customer?**

This request reflects historic and anticipated inflationary cost increases. The single largest cost in the Operating Supply activity is polymer. In recent years we have experienced 6 to 8% annual cost increases leading to a shortfall in this activity. Fuel and natural gas are expected to have more modest increases. Preparing for these increases should avoid a budget shortfall.
