Hey Adrian,

Thanks for your comment. I've attached a pdf of our subject property in relation to the 2019 DFRIM boundary as well as the newly established CMZ. Can you clarify the new hydrology that shows the

property in the 100 or 500 year floodplain? This is definitely something we want to catch if we missed it during element review.

Hope to hear from you soon,

CAUTION: Email originated outside of the organization.

While our agency does not regulate the flood plain, the area appears to be in a the 100 and 500 year floodplain according to the new hydrology.

Development Services will then have three days after the agency review deadline to complete their sufficiency review. Making the end of River View Subdivision sufficiency review November 16, 2021.

The link to the subdivision application for review is <https://www.ci.missoula.mt.us/2837/River-View-Subdivision-and-Rezone>.
