1. How will request assist in achieving Department Goal and benefit the customer

Traffic Services sidewalk snow removal route is growing in leaps and bounds. Not only linear miles, but in width as well with the edition of significantly wider sidewalks and bridge decks to accommodate muti-modal transporation. Additionally, buffered bike lanes are planned for the Mullan Build Project which will not accommodat for Street Operations & Maintenance large snow plow equipment.

2. What specifically is needed to achieve this goal?

Safer, more powerful enclosed cab machine for long days of snow removal, as compared to the atvs we currently operate. The Toro Groundmaster 7210 w/v plow serves these needs and also has the 360 degree pivot ability to reach the ada ramps without entering the vehicular travel lanes as would be needed with a standard utv. It would also be eqiped with a granular deicer speader.
