**Summary Description and rationale of project and funding sources:**

The City Wastewater Treatment Facility plays an integral role in the protection of vital surface water resources and our groundwater aquifer, which is our sole source of drinking water. Expansion, renovation, and upgrades of existing wastewater facilities is absolutely necessary for continued environmentally sound and planned growth of our community. The ST-2 RAS Valve Replacement was not included in the most recent SRF application and requires funding.

**History & Current Status: Impact if Cancelled or Delayed**

Wastewater treatment facility rehabilitation and upgrades are imperative to prevent system failure and protect the water environment and public health.
