Department Goal	Community Design and Livability		

1. How will request assist in achieving Department Goal and benefit the customer

Missoula County and the Missoula Development Park's Owners Association have requested the City of Missoula assume ownership and maintenance of deeded parks located in the general area of the Missoula Development Park industrial area, of which the medians and roundabout on Airway Boulevard and the Kestrel Park parcel will fall under Parks responsibility. The areas were annexed in 2019 by the City and is zoned predominantly for industrial uses. The property shows varying evidence of deferred maintenance – particularly noted regards irrigation system, shrub beds, trees, pests, trash, weed control, and curbing. Parks staff have re-assessed site conditions and annual expenses to maintain the properties. County will be asked to fund renovations to bring the medians, lawn and landscape to parks standards to minimize cost of maintenance, which will likely not take place this year, making maintenance costs higher for this year until the medians have been renovated. One time and annual costs related to maintenance are identified below.

2. What specifically is needed to achieve this goal?

Contracted services for mowing, trimming, spraying, landscape and irrigation maintenance of medians, Maintenance Worker, truck, and associated supplies for the DeSmet parcel.
