Summary Description and rationale of project and funding sources:							
<p>A permanent vault restroom is desired at the upper Greenough Park parking area as it would provide for year-round service to support trail, shelter and playground uses at the park. Sacajawea Park's proposed restroom would be a portable toilet placed inside a portalet shelter that is sited to meet health and safety code requirements for operation of the splash pad and visibility to and from the street, playground, and splash pad. Portable restroom is needed to meet health code requirements for splash deck operation - the most popular feature in the park. The prior year funding will be used to develop Sacajawea restroom as described above. Out year funding would need to be identified and would be used for Greenough park restroom facilities.</p>							
History & Current Status: Impact if Cancelled or Delayed							
<p>Projects are needed to replace former restroom facilities that no longer function/exist in order to serve residents and maintain the health and sanitation needs at each park. Greenough Park restrooms were destroyed by a falling tree approximately ten years ago. Park Users have been served in the interim with a portable toilet that is seasonally available from April through mid-October.</p>							
<p>Sacajawea park restrooms have been closed for several years due to their deteriorated physical condition of both the building and plumbing. Their current location also creates challenges including not being ADA accessible and lack of visual security due to poor site lines from the balance of the park.</p>
