**1. How will request assist in achieving Department Goal and benefit the customer**

MFD has an annual EMS refresher. During this time we bring in multiple guest speakers who are experts in their medical field. This is a great opportunity to bring the Department together and keep up on current trends in EMS. The EMS world has been making great strides in simulation training. This style training gives our providers a chance to engage in hands on training for hi risk low frequency calls. A prime example of this is a complicated child birth call. The simulation training gives a chance for hands on training and prepares our providers for real life.

**2. What specifically is needed to achieve this goal?**

Our needs will be strictly financial on this ask. We have the training platform and venue. The ask would be up to 3500 per year to provide simulation training.
