Summary Description and rationale of project and funding sources:

The Wastewater Division occasionally needs to upsize sewer mains installed by developers, so that they can provide capacity for other future developments. These will be funded with wastewater development funds.

History & Current Status: Impact if Cancelled or Delayed

It is important to plan for future growth to make sure adequately sized pipes are installed when a development installs sewer pipes. This cost can't be passed on to the developer installing a smaller pipe as required for their project.
