City of Missoula CIP Project Request/Update Form FY 2025 - 2029									
Department Priority			New or Update	Required	Delay	Project Title			
3	of 10		Update	Is this project Required?	Can project be delayed?	Clark Fork Sewer Crossing			
Project Rating	Department Public Works			Yes	No				
Plan	Wastewater/Compost			Is the project APPROVED for Fiscal Year 2025?				FUNDED?	
Summary Description and rationale of project and funding sources:									
<p>The Wastewater Division became aware that the large sewer main crossing the Clark Fork River at the Resource Recovery Facility is at risk of being damaged during flooding events. We have applied for a grant from FEMA to pay for the design but the award is unknown. The solution is not known at for certain, but will likely require installing a new large lift station and boring a large (30") diameter force main under the Clark Fork River. At this point, it is assumed that the full project will need to be funded with a State Revolving Fund (SRF) loan.</p>									
History & Current Status: Impact if Cancelled or Delayed									
<p>This project is critical to complete because it appears that the river bed is creating a scour hold downstream of the main that could cause the pipe to fail during a large flooding event.</p>									
Are there any site requirements/ Potentially Affected Interest (PAI) Coordination:									
<p>Ensure proper procurement for utilizing SRF funds.</p>
