Summary Description and rationale of project and funding sources:									
<p>Hellgate Park is a 3.85 acre public park located along East Broadway Street, along the banks of the Clark Fork River. The master plan was adopted in 2014, and in 2018 implementation began with the installation of a small dog park. The master plan includes improvements to the parking area, signage, trees, ADA access, walk in river access, restoration of native vegetation, and a small natural playground. The plan will be implemented in phases. To date Impact Fees have been used to begin implementation of the master plan. Prior year funding is appropriated for expense in FY25 via the FY25 Parks CIP update form.</p>									
History & Current Status: Impact if Cancelled or Delayed									
<p>Improved ADA access, parking and signage is critical as this park becomes more well known and popular amongst neighborhood residents and others. Because of its location along the river and the opportunity to provide walk in river access, the popularity will likely increase greatly, especially during summer months when people are more likely to recreate on the river. Additionally, the neighboring condo residents have expressed a desire for more trees to provide some screening between the parking lot and their homes. In FY17, \$1,039 of the Impact Fees were spent directly from Impact Fee fund to provide vegetation upgrades. In FY24 we hope to expend remaining funds to improve the parking area and overall park accessibility for users.</p>
