1. How will request assist in achieving Department Goal and benefit the customer

Central Services is at the forefront of the City's efforts to adapt to the future of work and engagement and ARPA funds were allocated in FY23- FY24 to help Central Service staff modernize the City's technology infrastructure and operationalize the City's strategic goals. Several FY5 projects are planned that will use the remaining unobligated funds for one time costs including: funding a consultant led needs assessment for the replacement of our aging financial system Edens that will position the City for a successful RFP and future new system deployment, implementation of new software for debt issuance called Debt Book, and support for the City's planned transition from O365 to M365 to bundle licensing and tools and enhance system performance and user experience.

2. What specifically is needed to achieve this goal?
