Summary Description and rationale of project and funding sources:									
This is the FY25 implementation of the MRA URD III Water Network Program. There is one project planned for FY25: Construction of water infrastructure in Kensington Avenue connecting to existing mains to the east and west of Stephens Avenue. The scope is approximately 2.5 blocks and will provide much needed water capacity in this area. The lack of water at this location is an impediment to redevelopment due to the need for fire suppression capabilities during development.
